ANNUAL REPORT
OF THE
SCHOOL BOARD OF SULLIVAN, N. H.
MARCH 1, 1887.

The School Board of Sullivan respectfully submit the following report for the year ending March 1, 1887 :

In presenting this, our first annual report, we believe it just to acknowledge a liberal share of the three requisites essential to good schools—a reasonable people, good school houses and competent teachers.

The usually active interest on the part of parents to co-operate with the teachers has been of great service in securing punctuality, constant attendance and obedience from the pupils.

The teachers required of their pupils prompt and regular attendance. Could this be accomplished without the aid of the parents? When our schools are ruined by irregular attendance it is generally conceded that the responsibility rests largely upon the parents, so in case of a prosperous school resulting from prompt and regular attendance, credit is due the parents to the same degree.

Of the eighty-four enrolled pupils fifty-one have been

neither absent nor tardy during a whole term, and thirty have escaped a mark for the entire year. Last year the percentage of daily attendance was eighty-seven. This record is better than was attained by any other town in our county. The present year it falls to eighty-three nearly, caused by scholars coming into school late in the term and other non-membership absences principally. For the efforts made to acquire this good record we are grateful, but hope in the coming year to be able to report a better record than ever before.

It is the law of the universe that great things shall be made up of littles. The same rule is equally true of common schools. It is by making a little gain in knowledge each day, by correcting little errors as they occur, by overcoming little obstacles, until each day is a little nearer perfect than the preceding one, that we are able to note the progress made from term to term. Sometimes there is so little improvement made in the amount written in the copy books in one term it is hardly noticeable, but frequently in a year there will be a very decided change in the hand-writing. Unusual pains has been taken in penmanship in some of our schools with good results.

To learn to call words correctly is not accepted for good reading by our best teachers. Most of our reading classes read understandingly and are able to explain the lesson in their own words.

Geography has been taught with a good degree of enthusiasm with and without map-drawing. Three of the teachers having taught the same school last year, the methods of instruction in all the common school branches were about the same with perhaps a little more precision.

Let the spirit of progression continue by repairing and furnishing our school houses until all are as good as

the best now are, by appropriating a generous amount for the support of our schools, by demanding correct habits in the home, and rendering such assistance as shall best aid the teachers in their responsible and arduous work.

MASON A. NIMS,
HENRY C. RAWSON,
ROSABELLE S. RUGG,

School Board.

SELECTMEN'S REPORT.

To the citizens of the town of Sullivan.

In presenting the annual report of the business affairs of the town we would earnestly recommend that more promptness be secured in the payment of taxes than has been practiced for several years past. There was more than \$1,700 00 uncollected taxes Sept. 14, 1886, when the county tax of \$414 08 became due, which necessitated the borrowing of money to pay the same.

We would suggest that the school money now in the treasury be used for the support of schools the present year.

As a century will be completed this year since the town was incorporated, we would recommend and hope there will be an appropriation made to pay the expenses of a Centennial Celebration Sept. 27th, and also for preparing and publishing the town history which every family in town ought to have.

Several days' extra labor were required the past year in making taxes on school house property, also in laying out new highway.

All of which is respectfully submitted with the following Financial Statement :

INVOICE APRIL 1, 1886.

11,658 acres real estate, value,	\$112,444 00
Money at interest,	17,315 00
